PROFILE

Hi, I'm Mohd Aman, a passionate and results-driven Software Developer with 2 years of experience. In my previous roles, I've been actively involved in designing, developing, and delivering innovative software solutions. I thrive on challenges and enjoy collaborating with talented teams to create cutting-edge products that have a positive impact on people's lives.

WORK EXPERIENCE

Drillmaps LLC - Full-Time

Oct 2022 - Aug 2023

Software Developer

- Applied in JavaScript operators, React JS, TypeScript, Cypress, Redux, RTK Query, GraphQL, query error handling, Material UI, and Firebase.
- Engineered web applications with a focus on scalability, responsiveness, and security. Ensured effective query error handling and seamless integration of Material UI for an enhanced user interface.
- Implemented best practices in coding and utilized advanced technologies to enhance functionality.

Neptastic Creative Studio - Full-Time

Nov 2021 - Sep 2022

Software Engineer

- Front-End Web Developer at Neptastic Creative Studio. Developed and maintained the company's website. Utilized expertise in HTML, CSS, JavaScript, and Bootstrap. Created responsive and user-friendly web pages. Played a key role in ensuring the website's visual appeal and functionality.

Staff Management & Computer Instructor

May 2018 - Dec 2018

Computer Teacher & Software Management

- Inspired learners through engaging instructional sessions. Fostered creativity among students to encourage innovative thinking. Imparted technical skills in a dynamic and effective teaching style.
